Crisis Communication Skills

Why Attend

- What do the 2010 British Petroleum spill, the disappearance of Malaysia Airlines flight MH 370, and the financial crisis of 2008 have in common? They were all unexpected crises that rocked the world and created seemingly insurmountable Public Relations (PR) challenges for the organizations involved. This course provides participants with the opportunity to identify how a crisis can impact an organization and what should be done to mitigate its effects. The course focuses on how to prepare the communication function to respond rapidly and effectively in the event of a crisis in order to be able to manage perceptions in the media and online.
- By attending this course, you will learn best practices in crisis communication management, situation analysis, risk assessment, crisis team formation and responsibilities, protocols, and resources to be used such as crisis manuals and communication tools.

Course Methodology

- The workshop is designed to be interactive and participatory with the occasional use of various educational and training tools. The course also relies on the use of real life cases aimed at helping the participants translate the theory into application in an effective and efficient manner. The course is built on four learning pillars: concept learning (lectures and presentations), role playing (group exercises), experience sharing (roundtable discussions) and exposure to real world crises and policy choices which participants may confront.

Course Objectives

By the end of the course, participants will be able to:
