

Arabian Institute For Training

The New Venture Development Process

INTRODUCTION

- This training seminar focuses on addressing the essential “8 Facets of New Ventures” in a hands-on, experiential process-flow that results in producing an original, professional, venture capital standard business plan that fully integrates the:
 - Product-Service Concept
 - Market
 - Competition
 - Business Model
 - Sales Strategy
 - Operations Plan
 - Management Team
 - Financial Plan
- This training course is applicable for both traditional entrepreneurs pursuing an innovative start-up venture, as well as planning teams within a corporation tasked with launching a new product-service initiative. Delegates will also develop a professional industry-standard slide-deck that parallels the business plan and is ready for making formal presentations to capital providers-investors, as well as corporate senior leadership / boards.

This training seminar will highlight:

- Creating a product-service feasibility for either the lowest cost or most differentiated position
 - Researching the size (breadth and depth) and valuing a target market for a product-service
 - Developing a detailed competitive matrix across multiple product-service features and pricing
 - Building a product-service specific Business Model
 - Structuring a specific sales strategy for getting the product-service into the target market
 - Managing all resources, timelines, and key benchmarks in the new venture launch process
 - Building comprehensive financial models of cash flows, sources-and-uses of funds, investors' capitalization sheet, projected sales and profit growth, and firm valuation
 - Producing a high-quality, professional Business Plan and accompanying slide-deck
-

OBJECTIVES

- Write a professional Business Plan
- Put an initial valuation on a new enterprise (traditional start-up or corporate venture)
- Perform a detailed market/industry analysis
- Perform a feasibility analysis for a proposed product-service innovation
- Analyze a competitive matrix across multiple dimensions of product-service features and price
- Present a new venture idea and critique other proposed new ventures
- Design a detailed Business Model for a new product-service concept
- Make a professional 8-point new venture presentation with accompanying slides

TRAINING METHODOLOGY

- This training seminar will use an inductive-rational approach for examining the entire breadth and depth of the new venture development process and entrepreneurial mindset for creativity, innovation, and risk assessment. The main focus is “hands-on” doing all the original research, analysis, review, and assessment while methodically building-developing a comprehensive business plan that includes all the key facets and decision making for a successful new venture launch or corporate initiative.

ORGANISATIONAL IMPACT

- Attendees will have immediate Return-On-Investment (ROI) for developing value-added to their own ideas / innovations for a proposed new product-service venture or corporate initiative. These skills, models, research-analysis, feasibility, assessment, and presentation/critique competencies will translate seamlessly to their current workplace, colleagues, and teams. The Return-On-Investment (ROI) is that attendees will be ready to demonstrate these tangible skills and competencies:
- Review, interpret, and critique any type / form of proposed product-service innovation
- Design and execute an original business plan
- Perform detailed pro-forma analysis of markets, competition, business model specs, and financial expectations for a start-up business or corporate initiative
- Organize and manage multiple levels of tasks, projects, deadlines, and planning schedules to bring a proposed new product-service innovation from conceptual pre-launch ideation to fully functioning, up-and-running business entity

PERSONAL IMPACT

Attendees will further their own professional development by:

- Understanding key terminology and concepts inherent in all forms of new venture development
 - Gaining an entrepreneurial mindset and perspective on creativity, innovation, and risk
 - Enhancing their presentation and critique capabilities in evaluating new venture ideas
 - Being able to “see” the big picture and all the parts / facets of the new venture launch process
 - Learning proactive forward-thinking approaches to bringing innovation to a market
 - Being able to seamlessly integrate technology, personnel, and financial resources
-

WHO SHOULD ATTEND?

This training course is suitable to a wide range of professionals but will greatly benefit:

- Individual entrepreneurs who already have an existing company and want to gain broader and deeper understanding of the new venture development process
- Individual entrepreneurs who would like to plan / prepare to launch their own new venture
- Corporate product-service development professionals who want to bring a greater degree of entrepreneurial perspective to designing and launching new product-service initiatives
- Individual investors who want to expand their understanding of the key facets that determine “best” new venture opportunities and funding types (debt vs. equity)
- Research & Development / Product Development Teams looking to infuse an entrepreneurial creative-innovative mindset to their ideation, feasibility, and assessment processes
- Business Development Directors looking to proactively be the drivers and initiators of new product-service opportunities within the corporation
- Financial professionals who want to expand their assessment metrics for valuing new ventures
