Fundamentals of Marketing

INTRODUCTION

- This Fundamentals of Marketing training course gives the participants an understanding of how to apply the essential principles, concepts, theories, tools, and techniques of marketing in their roles. Whether you are new to marketing or want a refresher on the fundamentals, it provides a clear understanding of the essential principles as well as best practices.
- The participants will leave with an understanding of how to think, act, and speak like a marketing professional. They will develop a winning marketing plan and be able to explain, to executives and other team members, how it can create value for customers and the organisation.

This training course will highlight:

- Identifying and understanding customer needs and demands
- Choosing which markets to enter
- Developing products and services that satisfy your target markets
- Clearly explaining the benefits of your products and services
- Persuading potential customers to purchase what you sell
- Proving your efforts have led to improved revenues, profits and market share

OBJECTIVES

By the end of this training course, participants will be able to:

- Explain the key marketing concepts and how marketing fits within their organisation
- Apply the marketing mix in their role and team
- Understand the factors that influence B2B and B2C customer behaviour
- Share how customers make buying decisions and influence marketing activities
- Explain pros and cons of the communication tools and choose the most effective for engaging customers

TRAINING METHODOLOGY

- This Fundamentals of Marketing training course combines presentations that share both theory and industry best practices with practical sessions in accordance with adult learning and blended learner-centered principles. The participants will have opportunities to put into practice the skills they develop and enhance during the course and make the most of small and whole group exercises, videos, case studies, peer exchange, brainstorming, role plays and discussions and will spend time working one-on-one and in small groups to resolve the challenges participants face.
-

ORGANISATIONAL IMPACT
