Managing the Cash Cycle

INTRODUCTION

- This 10-day Managing the Cash Cycle training course will provide a leading edge forum for you to significantly improve your working capital management skills. You will gain a comprehensive range of very practical and highly effective tools and approaches that can be immediately implemented upon your return to work.

By attending this training course, delegates will understand:

- The importance of credit to the company and the economy
- The “cost of credit” and its impact on company profitability
- Practical steps that reduce bad debt losses and “uncollectible” debtors
- How to use different tools and techniques to maximize cash collection effort
- How to effectively manage cash and working capital to reduce costs and improve cash flow
- How leading companies from across the globe are achieving best practice in Accounts Receivable
- The importance of the accounts payable function with regard to its links with the supply chain and cash flow
- The integrated systems of purchase order processing, stock (inventory) control, purchase ledger and cash payments and their links with the general ledger
- How to effectively manage cash and working capital to reduce costs and improve cash flow
- The impact of risk and uncertainty on the business and its impact on accounts payable and cash flow
- How leading companies from across the globe are achieving best practice in Accounts Payable

PROGRAMME OBJECTIVES

- Work effectively with the fundamentals of accounts payable, accounts receivable, financial accounting and the supply chain
 - Understand and apply the fundamentals of effective transactional management systems
 - Review and comment on payment methods and cash management
 - Understand the need to incorporate risk and uncertainty into transactional processing and cashflow management
 - Identify best practice across all industries by examining case studies from across the globe
-

WHO SHOULD ATTEND?

- This training course provides a user-friendly environment to develop the knowledge and techniques related to both accounts receivable and accounts payable that are valuable for:
- Finance Executives
- Accountants
- Others who are working within Transactional Finance, Accounts Payable or Accounts Receivable process or who wish to develop a practical toolkit to complement their existing professional or technical skills
- This 10-day Managing the Cash Cycle training course is also ideal for those wishing to develop their understanding of how Working Capital efficiencies can make a significant improvement to profitability or you may already be employed in any of these functions within the business.

TRAINING METHODOLOGY

- The instructor engages all of the delegates, both in the presentation of the material and the training course sessions, so that everyone leaves with a working knowledge of the material and the ability to use them immediately.

PROGRAMME SUMMARY

- Working capital management influences both a firm's risks and its expected returns. After completing this training course, you will be aware of the risk return trade-offs that are implied in financial forecasting, know the process of financial planning, the importance of managing cash inflows and outflows, how to finance short-term assets, and make the right decisions on financing and investment for your firm.
