The Effective Finance Professional

INTRODUCTION

- This Finance & Budgeting training course on The Effective Finance Professional will equip you with the practical knowledge and skills to meet the challenges of the changing landscape in the 21st century Finance function. This expert-led training course will focus on how, by streamlining key Finance processes and achieving operational excellence, time saved can be invested in advanced cost management, business analytics and enhanced planning, forecasting, and reporting techniques; techniques that can facilitate the development of Data-Driven Decision-Making (DDDM).
- The 21st century had already seen massive disruption to business processes and business models facilitated by rapid and significant developments in digital technology and data management. In world-class organisations the Finance function is applying these developments to streamline traditional processes and invest the time saved in improving the business support the Finance team provides to its key decision-makers. The ultimate goal in this process is to transform the Finance professional from a business analyst into a Strategic Finance Business Partner.

This training course will highlight:

- How is the digital revolution disrupting business and the Finance function?
- Strategies to streamline and build operational excellence in Finance processes
- The impact of Business Intelligence and Business Analytics on decision-making
- Leveraging “Big Data” to build high impact dashboards and reports
- Building advanced skills in planning, forecasting, and reporting
- The Finance professional's role as a Strategic Business Partner

OBJECTIVES

By the end of this training course, the participants will be able to:

- Understand how businesses processes and business model are disrupted
- Improve and streamline key Finance processes to gain time savings
- Apply techniques to manage and reduce operating costs
- Use predictive data analytics to improve planning and forecasting
- Apply advances Excel techniques to build business dashboards
- Develop the skills of a Strategic Finance Business Partner

TRAINING METHODOLOGY

- This Finance & Budgeting training course on The Effective Finance Professional will be structured as a highly participative workshop with formal seminars and interactive practical examples. Relevant case studies and recent research findings will facilitate a thorough understanding of each of the key topics.
-
