Advanced Emotional Intelligence

INTRODUCTION

- People with emotional intelligence are usually more successful in life. This is because they manage themselves better and they get along with other people much more easily compared to those who are easily emotionally stressed. Emotional excellence is characterized by the ability to understand and control their emotions, motivated to succeed in their endeavors, able to empathize, and communicate effectively.
- This Advanced Emotional Intelligence training course equips leaders with skills to help his team deliver the organizational goals. You will learn how to manage your soma (body), psycho (thoughts and feelings), and pneuma (spiritual heart) to develop emotional excellence in your life. You will also develop skills to help your employees be open to new ideas and communicate effectively. If you've mastered this, you've mastered life.

OBJECTIVES

By the end of this training course, you will be able to:

- Develop emotional excellence in yourself and in others
- Create a work culture where employees feel they add value
- Motivate employees effectively
