Effective Business Risk Management Strategies using ISO 31000 Framework

INTRODUCTION

- All organisations face the increasingly complex challenge of managing a wide variety of risks and opportunities effectively. Some of these risks are well understood and managed; others are less well understood, inadequately managed or simply ignored.
- Organisations need to enhance resilience in the face of ever complex and increasingly global risks and the framework outlined in ISO31000 embodies international best practice that is applicable to all types and sizes of organisation. Knowledge of the requirements of ISO31000 will enable you to bring the benefits of effective risk management into all aspects of your organisations including planning, operations and communication. In this training course you will study:
 - The principles of risk management
 - A framework for the management of risk
 - Risk assessment
 - Links to other management systems

PROGRAMME OBJECTIVES

- Gain an understanding of what is required for managing enterprise risks
- Application of the formal structure provided in ISO31000 to their organisation
- An understanding of different techniques for risk assessment
- Audit skills and techniques to determine effectiveness of risk management
- Opportunities for improvement in the management of risk throughout the organisation

WHO SHOULD ATTEND?

- Professionals responsible for developing organisational strategy and defining organisational objectives
 - Risk management professionals
 - Those responsible for developing individual systems for managing specific risks within the organisation, e.g. Safety, Environment, Quality, IT security
-

TRAINING METHODOLOGY

- Participants will learn by active participation throughout the training course through the use of course materials, exercises, questionnaires, and discussion of “real life” issues in their organizations.

PROGRAMME SUMMARY

- The goal of this training course is to enhance the knowledge of delegates in understanding the requirements of international best practice in risk management, enabling them to apply this in their own organisations. Delegates will have the opportunity to examine the establishment of a risk management framework and various tools and techniques for risk assessment in their organisation. They will also be able to learn the benefits that can accrue to overall organisational performance through effective audit, monitoring and improvement techniques.
